

Remote Ocean System Quality Policy

1.1 Quality Policy

Management uses the Quality Policy as a framework to lead the organization towards achieving its quality objectives. This includes ensuring the Quality Policy reflects the commitment to comply with requirements and to continually improve the effectiveness of the QMS. Management ensures the Quality Policy is communicated and understood in the organization, and is reviewed for continuing suitability.

Quality Policy

Remote Ocean Systems is committed to achieving complete customer satisfaction and maintaining an organizational culture focused on continuous improvement.
